G90 ONE OF ONE
BLACK TAILORED

Front design is amplified with an elite, all-black ensemble of the G-Matrix patterned Crest Grille, radiator grill, and the front emblem, solidifying its bold presence.

Side Profile with the iconic parabolic lines, is further perfected with black exclusive wheels, black brake calipers, and black DLO molding

Rear design exudes confidence with its pure black aesthetic and minimalist approach. In line with the Korean design philosophy of "the beauty of white space," rear emblems are removed, leaving only the iconic Genesis logo, symbolizing elegance and sophistication.

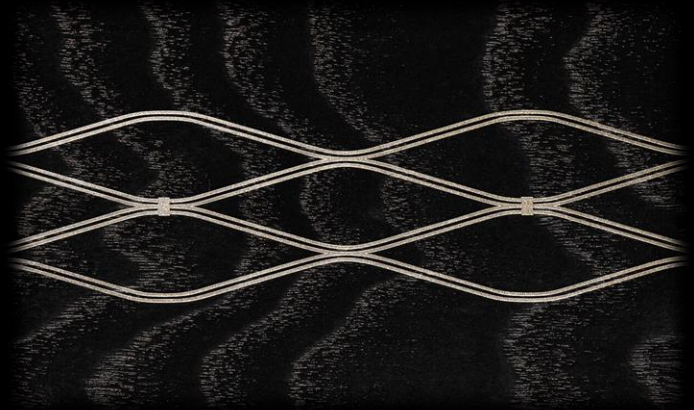

In the Genesis G90 Black tailored interior, not all black is equal; each element varies in brightness, emphasizing individual components. Every detail was meticulously designed to enhance luxury, inviting tranquility amidst the black accents
